Education

University of Cincinnati, OH - College of Engineering and Applied Science
Bachelor of Science, Computer Science

July 2024

Experience

AMEND Consulting - Cincinnati, OH

July 2025 - Present

Senior Technical Analyst

- Led frontend engineering and UI design for an enterprise application, generating \$1.7 million in revenue
- Drove discovery and delivery support for two enterprise modernization initiatives at \$2B+ corporations
- Led daily UAT sessions with key users ahead of go-live to instill user confidence in the application
- Used data analysis to drive client on-time delivery from 73% to 97%
- Modernized a legacy application, delivering \$1.5M in annual net savings while improving performance and reliability
- Enhanced an existing algorithm using insights from customer behavior and historical consumption data
- Utilized Power BI and SQL to centralize KPI reporting and monitor rollout impact
- Led a Kaizen event for 40+ employees to implement new procedures designed through data analysis and operational workflow assessment
- Built solutions in C#, Power Apps, and Power Automate with custom API integrations
- Tracked technical debt, defects, and delivery progress across the project lifecycle
- Coordinated communication between client stakeholders and the delivery team; maintained documentation
- Mentored incoming analysts on delivery processes, tooling, and client communication

Seven Hills Technology Solutions - Sharonville, OH

July 2024 - July 2025

Software Developer

- Built and maintained three .NET web apps using C# and React for 190,000+ monthly customers
- Created a production tracking tool for multiple restaurant locations, improving wait time accuracy by 62%
- Contributed to a B2B SaaS healthcare platform for 60+ private practices, ensuring HIPAA-compliant data handling
- Integrated 7+ third-party APIs, expanding product capabilities and reducing manual workflows
- Built backend logic and Azure workflows with MySQL to boost efficiency and reliability
- Led client demos and daily standups, ensuring alignment and accelerating delivery cycles

Kroger Technology Digital - Cincinnati, OH

May 2022 - May 2023

Mobile and Web Developer Intern

- Served as Feature Lead for a new user-facing app page (Kotlin/XML), generating \$7 million in annual savings
- Owned two user interface features deployed to 2,000+ Kroger stores nationwide
- Led A/B testing and user research in beta stores to validate features and inform data-driven design
- Wrote technical specifications, user stories, and reports to document product lifecycle
- Built automated testing scripts to harden the app and increase product stability
- Operated as a Feature Lead on Kroger's online order fulfillment progressive web app (React, HTML, CSS)
- Explored emerging generative AI to develop intelligent virtual assistants to increase user engagement
